HL7 IPS Project

*Result of a **common coordinated work***

Konzepte rund um IPS: CEN/TC 251

- Methode: ISO 13940: 2017 System of concepts to support continuity of care
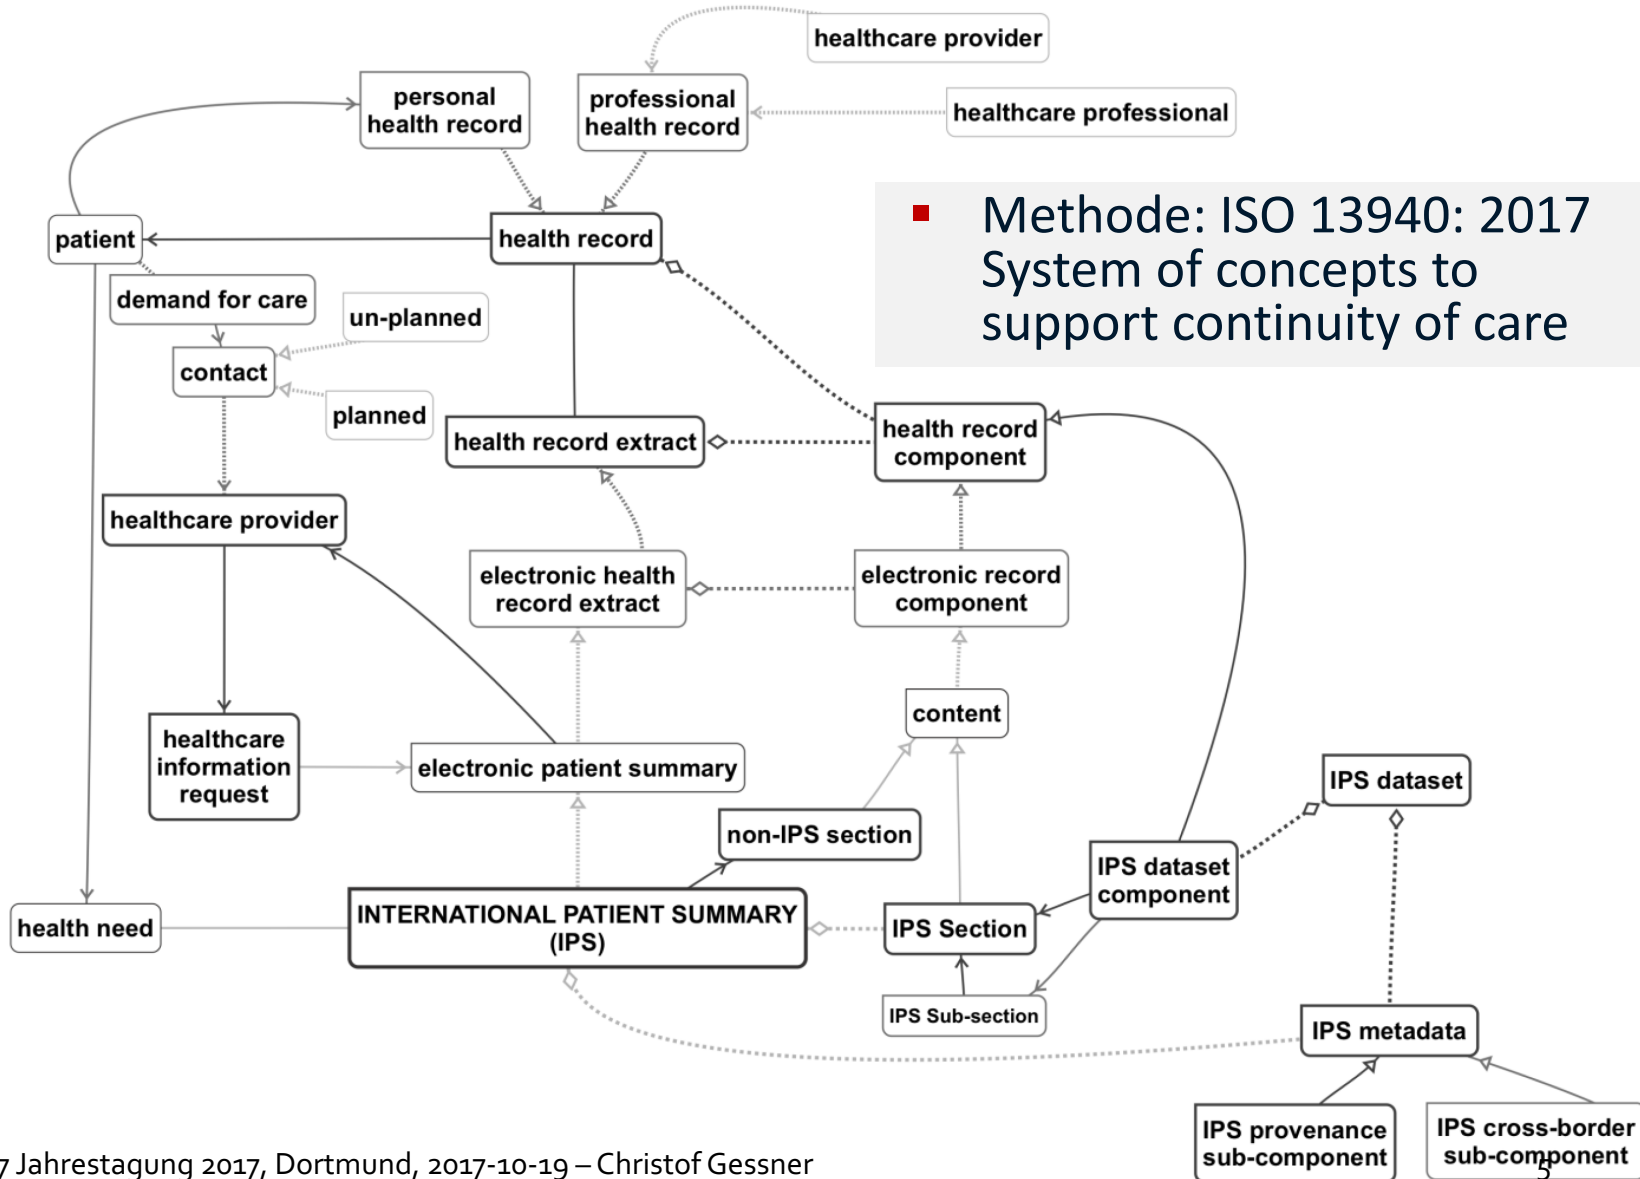

Innovation requires cooperative use of eStandards across the life cycle

Co- creation

Governance

Alignment
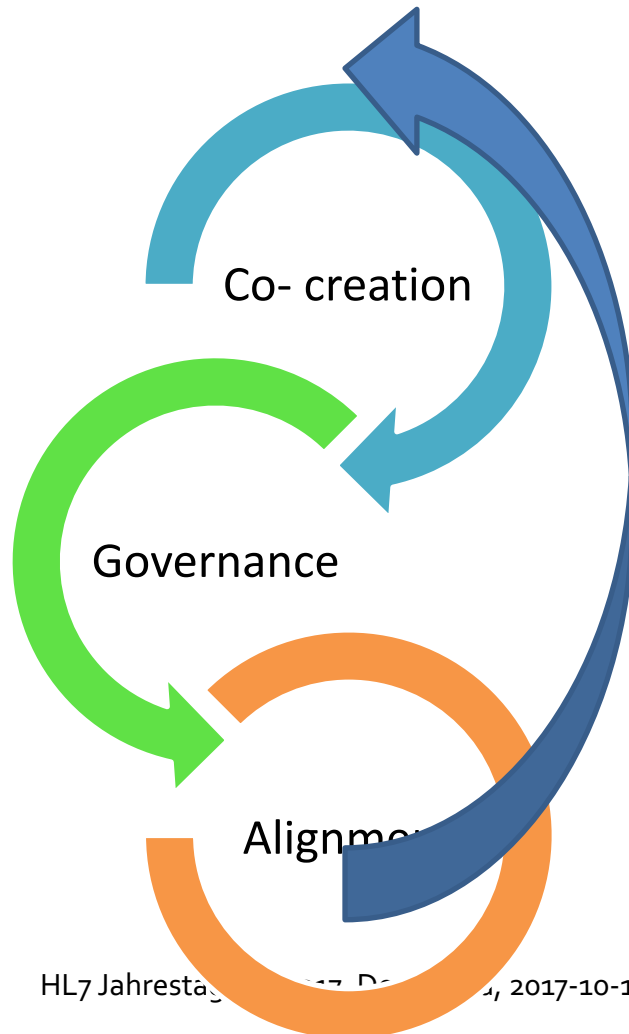

To develop, deliver, test and deploy standards sets which are properly adapted to a dynamic healthcare system, we need a constant flow of interaction between three types of activities:

➢ **Co-creation** between all relevant stakeholders
  ➢ to make it *real* using standards

Health system	Work-force
Citizen	Market

➢ A supportive and appropriate **governance** system
  ➢ to make it *scale* toward large-scale deployment

➢ The flexibility to **adapt and align** as needs and requirements change
  ➢ to make it *stay* in a sustainable way

eStandards

Was kann HL7 dazu beitragen?

Partnerschaften mit der EC und anderen Stakeholdern

Fördern der **Kooperation zwischen EU HL7 Affiliates**

Stärkere **Einbeziehung der Affiliates**

Aktiv in **Europäischen Projekten** mitmachen

Aktivitäten zur **Verbreitung** (Tagungen etc.)
